# Basic Instructions Diagrams

## "A word about"

If you are new to knitting you are most likely struggling with the new language you have had to learn to read to follow a knitting pattern as well as the new stitches to make your garment so here are a couple of helpful items:

**Reading patterns.** The smallest size is always listed first and following sizes usually are placed in "( )" you will find it much easier to follow the pattern if you mark the pattern with a pen or pencil circling the size you are using.

**Tension.** A tension square is always recommended unless you are very sure of your knitting style. This will ensure you get what you wanted for all your effort. To make a tension square follow the directions on each pattern.

As an example 22 stitches by 29 rows over stocking st. = 10cm. would mean ....

Cast on 22 stitches, knit first row, purl second row, continue in stocking stitch until 29 rows have been completed. Cast off. Measure the square. If your square is not 10cm your tension is not as for the pattern, if tension is to loose use a half to one size smaller knitting needles and if tension is to tight use half to one size larger needles.

Remember that if your tension is not correct, dimensions and yarn usage will all be significantly effected.

**Yarns.** Please note to use the specified wool other yarns are likely to produce different results.

**Sewing up your garment.** Use a large eye needle such as a darning needle, or a long teddy bear needle and the yarn from the garment. Back stitch is the most commonly used stitch for sewing up garments, and is as its name suggest is a straight stitch progressively moving backwards and forwards over a line for strength.

## CAST ON

**Cast on.** Create a slip knot on yarn and place on left (holding) needle. Using right (working) needle place between slip knot and pass yarn around needle and form a loop pulling this loop through with working needle and place on holding needle. This will place 2 stitches now on left holding needle. Repeat using stitch just created to form next stitch.

## CAST OFF

**Cast off.** Knit two stitches Pick up the first stitch knitted and lift over second stitch knitted and off working needle between the needles.

## KNIT

**Knit: K.** Push the needle through the middle of the first stitch, pass the yarn around under the left and over to the right. Pull the loop through with the working needle. Slip the stitch off holding needle.

## PURL

**Purl: P.** Holding yarn at the front push the needle through the first stitch. Pass the yarn around under the needle and back to form a loop. Pull the loop through, slipping the stitch off the holding needle and onto the working needle.

## CHAIN

**Chain: ch.** To start make a slip knot on hook. Pass the yarn over and draw it through the slip knot loop, continue passing yarn over and drawing through hook.

## SLIP STITCH

**Slip stitch: sl s.** Insert the hook in stitch pass the yarn over and draw loop through stitch.

## DOUBLE CROCHET

**Double crochet: dc.** – known in US as single crochet or sc: single crochet. Insert the hook in stitch pass yarn over and pull a loop through, pass the yarn over the hook and draw through both loops on the hook.

## TREBLE CROCHET

**Treble crochet: tr.** – known in US as double crochet. Pass yarn over hook, insert hook into top two loops of stitch. Pass yarn over hook and pull a loop through stitch, (3 loops on hook) pass the yarn over hook and draw through the first 2 loops on hook, pass yarn over hook and again draw it through remaining 2 loops.

## HALF TREBLE CROCHET

**Half treble crochet: htr.** – known in US as half double crochet. Pass yarn over hook, insert hook into top two loops of stitch, the same as in treble crochet pass yarn over and pull a loop through stitch, creating 3 loop on hook, pass yarn over hook and draw through all loops on the hook.
